

Ingres NeXt

Readiness Assessment

Benefits

Readiness Assessment Benefits

- Reduce risk
- Save time and associated costs
- Leverage best practices and planning

Readiness Assessment Goals

The Ingres NeXt Readiness Assessment enables customers to:

- Understand database and application dependencies and underlying technologies
- Select the right modernization approach
- Ensure all components are addressed for migration
- Establish database and application connectivity and performance requirements
- Confirm data migration requirements
- Identify potential issues and risks
- Apply knowledge learned to facilitate migration planning and phased implementation

Overview

The Ingres NeXt Readiness Assessment offers a pre-defined set of professional services tailored to your requirements. The service is designed to assist you with understanding the requirements to modernize Ingres and ABF or OpenROAD applications and to impart recommendations important to your modernization strategy formulation, planning, and implementation.

Steps

Kick-off

- Identify goals & requirements
- High level system review to confirm scope & risks
- Confirm joint agenda & scope

Review Current Database & Operations

- Data loads, extracts & batch operations
- Data security
- Users/Roles
- Configuration settings
- Backup/HA requirements
- Assess uptime/access

Review Current Applications

- Application dependencies, connectivity & utilization
- Potential areas of concern and workarounds
- 3rd-party applications, drivers & libraries

Review Migration Requirements

- Upstream dependencies
- Migration window
- Parallel run & failback operations
- Data migration options
- Cloud vendor preferences

Understand Sizing Requirements

- Daily, monthly, year-end processing
- Performance & concurrency
- Current versus future state

Output

- Approach
- Scope
- Resources
- Timescales
- Effort
- Risk Mitigation
- Documentation
- Recommendations

Deliverables

- Modernization assessment analysis and summary report
- Modernization recommendations

Optional Next Steps

Based on the knowledge gleaned from the Ingres NeXt Readiness Assessment, we can assist you with your pilot and production deployment.

Actian can also facilitate a training workshop should you require preliminary training.
