

About Actian

Actian transforms business by simplifying how people connect, manage, and analyze data. With a portfolio of data infrastructure products built on decades of expertise and innovation, Actian helps companies solve the world's most mission-critical data problems.

Actian Software and Services to Connect, Manage & Analyze Data

Avalanche Cloud Data Platform: The flagship Avalanche cloud data platform is a fully managed suite of data services with flexible deployment options, including public cloud, hybrid, or on-premises environments. Avalanche delivers enterprise-proven data integration, data management, and data analytics services in a trusted, scalable, and easy-to-use platform. Avalanche stands out from the competition by providing unrivaled price-performance, real-time operational insights, and access to hundreds of data sources in an integrated platform.

In addition to the Avalanche Platform, Actian offers a broad range of trusted data products:

Actian X:	Hybrid transactional/analytical processing
DataConnect:	Low-code integration platform to automate data pipelines and ensure data quality
Ingres:	Legendary transactional RDBMS
Link:	Embeddable, cloud-native, no-code integration platform to provide out-of-the-box integration for 3rd party applications and resources
NoSQL:	Extremely complex object models requiring highly scalable and available processing
OneDB:	Embeddable with SQL, time series, spatial and multimodal capabilities
Vector:	Vectorized for high-performance BI and analytics with operational insights
Zen:	Embeddable edge data management solutions

Why Actian?

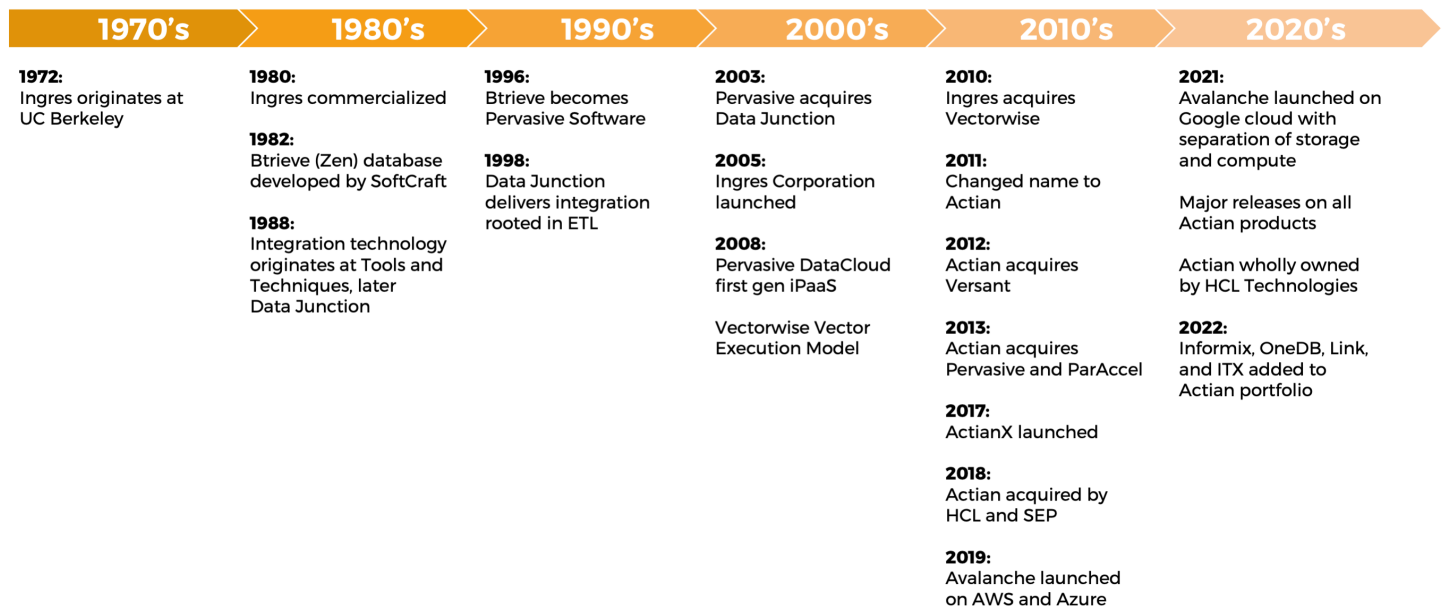

Unmatched Performance: Built to deliver sub-second query results at a fraction of the cost of the competition.

Action Makes Data Easy: Avalanche combines data integration, management, and analytics in an easy-to-use, scalable platform to meet the most demanding enterprise data needs.

Trusted: Over 10,000 customers across industries and geographies rely on Actian products to drive innovation and power their most sensitive data deployments.

Flexibility: Deploy products anywhere with the flexibility to move data workloads between data centers, cloud, or hybrid environments.

Data expertise: Actian has a broad portfolio of groundbreaking patents, a history of industry firsts, and decades of experience building mission-critical solutions that customers trust to power their business.

Customer Proof Points:

PredictX, a leading provider of predictive expense analytics, helps Fortune 100 companies optimize travel-related expenses through AI and advanced analytics built through the Avalanche Cloud Data Platform.

The world's largest healthcare company, **United Healthcare**, implemented Actian's DataConnect integration technology to reduce the time to process 1 billion claims by 60%.

HSS Hire, one of the UK's leading suppliers of tool and equipment hire and services, uses Actian X to ensure their supply chain runs and inventory is managed across 265 supercenters and branches.
