

# Data Intelligence Use Cases from the World's Leading Organizations

Discover how global enterprises achieve regulatory compliance excellence, enable self-serve analytics empowerment, and create AI-ready data foundations with the Actian Data Intelligence Platform.

## From Setup to Search: Deploying Data Catalogs at Speed

### 6 Months, 90% Automation

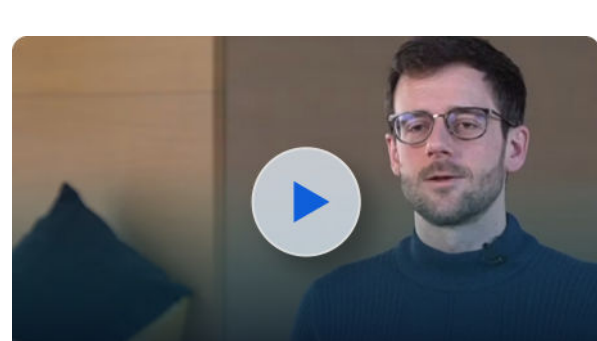

Autostrade per l'Italia chose the Actian Data Intelligence Platform to manage its growing data lake. Within six months, over 200 users gained self-service access to trusted data, and 90% of cataloging was automated.

### Supporting 74,000 Properties

Gewobag empowers teams to easily discover, trust, and leverage data for smarter decisions and sustainable growth while supporting advanced analytics and seamless collaboration.

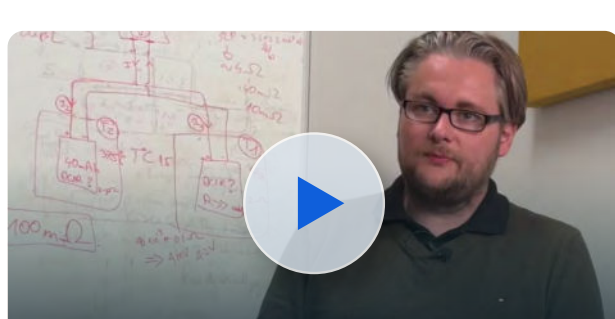

Actian automatically connects and synchronizes metadata from all of our sources, and it is unrivaled in terms of flexibility and configurability of properties and metamodeling."

– **Daniela Zelmer**, Data Management Leader

## Governance by Design

### Using Data to Drive Sustainability Goals

ACC, a leading sustainable battery manufacturer, plans to onboard over 50% of its staff onto the Actian Data Intelligence Platform. This initiative will provide secure, well-governed access to data and establish clear data ownership and access controls.

[Watch the story >](#)

Thanks to the Actian Data Intelligence Platform, everyone knows where to find the data they need, who owns it, and who can access it, saving time on endless emails." – **Dr. Vincent Dekker**, Head of Data Governance
